

2022 STREET MAINTENANCE PROJECT

CONSTRUCTION BEGINS THE WEEK OF MAY 9

Beginning the week of May 9, construction will begin for the 2022 Street Maintenance Project. Improvements include pavement rehabilitations in the Eagle Ridge Neighborhood as shown in the map below. In an effort to prepare residents for construction, below are a few details on what to expect.

Reclamation

Debbie Lane, Debbie Circle, Debbie Court, Griffin Street and Griffin Circle

Grind existing pavement and gravel base into a new uniform base material. Grade and compact, then pave new layer of asphalt.

Mill and overlay

Skyview Lane

1. Remove the top layer of asphalt (milling).
2. Pour, level and bind new layer of asphalt (overlay).

SCHEDULE

Construction will begin the week of May 9 and is expected to be completed by mid-June, weather permitting.

WHAT TO EXPECT DURING CONSTRUCTION

Contractors typically work from 7 a.m. to 7 p.m., Monday through Friday, with some Saturdays. During working days, there will be noise, mud, dirt piles, dust and other construction-related activities. While it is not possible to mitigate all of these issues, the contractor will try to limit these disturbances as much as possible, including spraying the road to control dust and filling in and grading muddy areas.

ACCESS IMPACTS

Minor impacts to access will occur throughout the project, but roadway and driveway access will be maintained to residents throughout construction. Please note that if school bus routes are impacted by construction, the bus company will be reaching out to homeowners.

TEMPORARY MAILBOXES

Please note that residents within the reclamation project area (see above) will have temporary mailboxes installed during construction. This will be located at the intersection of Mount Hope Road and Debbie Lane.
