

2022 STREET MAINTENANCE PROJECT

CONSTRUCTION BEGINS THE WEEK OF MONDAY JUNE 27

Beginning the week of June 27, crews will be on site lowering man holes and gate valves in preparation for road construction. Traffic will be maintained during this work. Please drive slowly through the project area while this work is occurring.

Reclamation

Carver Bluff Parkway

Grind existing pavement and gravel base into a new uniform base material. Grade and compact, then pave new layer of asphalt.

SCHEDULE

Construction will begin the week of June 27 and is expected to be completed by mid to late July.

WHAT TO EXPECT DURING CONSTRUCTION

Contractors typically work from 7 a.m. to 7 p.m., Monday through Friday, with some Saturdays. During working days, there will be noise, mud, dirt piles, dust and other construction-related activities. While it is not possible to mitigate all of these issues, the contractor will try to limit these disturbances as much as possible, including spraying the road to control dust and filling in and grading muddy areas. Normal garbage pickup will be maintained.

ACCESS IMPACTS

Minor impacts to access will occur throughout the project, but roadway and driveway access will be maintained to residents throughout construction. Please note that if school bus routes are impacted by construction, the bus company will be reaching out to homeowners. Residents can get access through CR 40 for the duration of the project.
