PER CITY CODE THE FOLLOWING ITEMS MUST BE SUBMITTED WITH THIS APPLICATION:

- Copies of any agreements contemplated or entered into between the owner of the land and any other person charged with performance of such grading
- A map showing existing conditions on the site and within 350 feet of the perimeter of the site including land ownership, structures, utilities, roadways, vegetation, drainage courses and other pertinent natural features, such as contour lines if requested by the city engineer or city council.
- A plan for removal or deposits upon subject property in accordance with provisions of this Ordinance, and showing final topography indicated by contour lines at no greater interval than two feet; steps to be taken to conserve topsoil; anticipated future use of the property including location of future roads, drainage courses and other improvements.

To the best of my knowledge the above stated is true and accurate.
