

## Carver City Council Members List

### A Brief Introduction:

When the first council meeting took place on May 11, 1857 the highest position was “Chairman of Supervisors” and the other council members were “Supervisors” of the village. At this time, there was one Chairman and two Supervisors.

In 1878 the titles shifted and “President” emerged to replace “Chairman of supervisors” and the “Supervisors” became the Board. The number of board members also increased to three, along with the President.

It was sometime in the 1930s-1960s when the familiar terms of “Mayor” and “Council member” were introduced. It was also during this period, between 1929-1942, when the number of council members increased to four, which is still the current number of council positions, along with the Mayor.
